

WHY BUY A USED CMM FROM US?

Our Knowledge at Your Facility

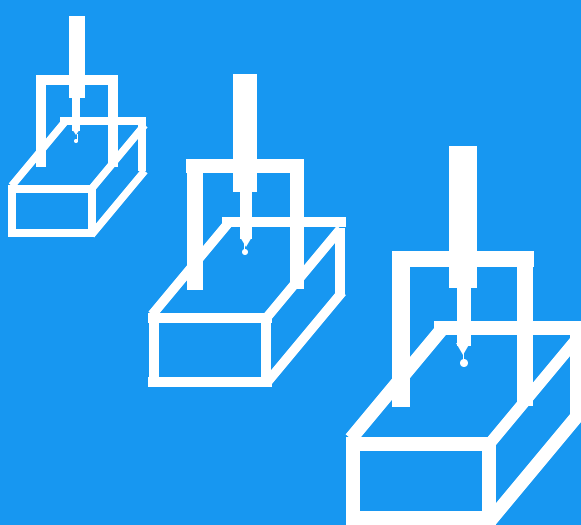

TESTED AND APPROVED

Every pre-owned CMM is thoroughly inspected to ensure that everything from the probing systems to the controller is fully functional and ready to use.

WIDE SELECTION

Whether you have a specific model in mind or are simply browsing different options, we can find the CMM that meets your needs through our large inventory of pre-owned machines.

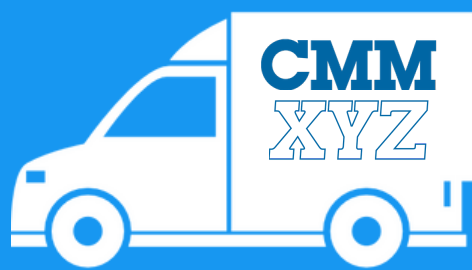

SOFTWARE AND ACCESSORIES

Each pre-owned CMM comes with a current version of PC-DMIS or a software of your choosing.

PACKAGING AND SHIPPING

Each CMM is carefully packaged by our highly knowledgeable staff to ensure that the coordinate measuring machines arrive at destinations across the globe in immaculate condition during shipment.

SUPPORT

We offer a full suite of solutions ranging from installation to servicing and training to technical support.
